

MANY BILLS PASSED

Congress Devotes a Day to Business.

ALLEN AND CALL CAUSE FUN

Another Resolution Demanding Investigation of Recent Bond Issues.

WASHINGTON, February 19.—In the senate today Mr. Carter of Montana, offered a resolution to recommit the tariff bill to the finance committee for further consideration. This move by one of the four Republican senators who voted against taking up the tariff bill caused much interesting comment. Mr. Carter did not press the resolution but said he was likely to take it up next Monday when he would address the senate. The announcement was ascribed as forestalling a statement of the attitude and purposes of the silver senators who voted against considering the tariff bill.

It was definitely arranged that the Cuban question would be taken up at 2 o'clock tomorrow, all appropriation bills thus far reported to the senate being cleared from the calendar. The diplomatic and consular appropriation bill was passed during the day.

The close of the day was marked by an amusing controversy between Mr. Allen, Populist of Nebraska, and Mr. Call, Democrat of Florida, which kept the senators and spectators in roars of laughter for half an hour.

About sixty private pension bills were passed during the day. The bill pensioning the widow of the late Secretary Greenham as brigadier general at \$200 monthly, with an amendment making the amount \$100 monthly, went over without action to permit Mr. Voorhees to speak against this amendment.

Soon after the senate session opened, Hill, Democrat of New York, spoke concerning the hundreds of petitions he has received from all parts of the country as to the prohibition of the sale of beer at Ellis island where immigrants arrive. The senator said he could not see why the sale of beer to immigrants was a serious matter.

"I am inclined to believe," said Hill, "that a glass of beer would be very welcome to these immigrants when landing in this country."

Judge presented a senate resolution directing the finance committee to investigate and report on the circumstances attending the sale of United States bonds during 1894, 1895 and 1896, and the disposition of the proceeds of such sales. The resolution went over. It is precisely the same as the resolution which last year passed the house yesterday by Hill's speech carrying the debate up to 2 o'clock, except it directs the finance committee, instead of a special committee, to make the investigation.

At 4:05 p.m. the senate adjourned.

HOUSE.

WASHINGTON, February 19.—The house today devoted itself strictly to business. The army appropriation bill, carrying \$22,575,592, was passed, the conference report of the urgent deficiency bill was adopted and the bill to extend for five years the time in which the government can bring suits to compel patentees to publish their inventions under railroad and wagon road grants was passed.

The following proviso was also added to the bill:

"That no suit shall be brought nor shall recovery be had for lands that were patented in lieu of other lands covered by grants which were lost or relinquished by the patentee owing to the neglect of the government to withdraw the same from sale or entry."

The substitute for the bill offered by Mr. McKim, Democrat of Arkansas, to repeal outright the limitation of the act of 1891 was defeated, 72 to 119.

Mr. Vickers, Republican of South Dakota, offered an amendment to the army appropriation bill providing that no officer of the army should be detailed to duty as an Indian agent. It was ruled out on a point of order, as was an amendment offered by Mr. Bowers, Republican of California, against the granting or holding of forest reservations or national parks with troops.

Soldiers, Mr. Bowers said, prevented visitors to Yellowstone park from hunting or fishing without permits, yet on a recent visit to the park he ascertained that the soldiers themselves had slaughtered hundreds of deer.

Most of the new provisions in the bill, including those for the appointment of paymasters from the line of the army, and for communication of quarters to officers doing duty at stations where the quarters are inadequate were stricken out on points of order.

At 4:05 the house adjourned.

FRUIT AND GRAIN MARKETS.

SAN FRANCISCO, February 19.—Jobbing prices are as follows:

Apples—Fancy Moorpark 100, choice 100, fancy 95c, choice 85c, standard 70c, prime 60c.

Peaches—Fancy 50c, choice 40c, standard 35c, prime 30c, peeled in boxes 10c to 12c.

Prunes—Four sizes 4c.

Nectarines—Fancy 5c, standard 4 1/2c, prime 4c.

Raisins—In sacks or 50-pound boxes, 4-crown, loose, 3c; 3-crown 2 1/2c; 2-crown 1 1/2c; dried grapes 2 1/2c.

In 20-pound boxes, 3-crown, London layers, 55c; 4-crown, 50c; 5-crown, 45c; Imperial clusters 25c.

Wheat—Steady; December, \$1.13 1/2; May, \$1.13 1/2.

Barley—Steady; May, 72 1/2c.

Corn—50c.

Beans—\$14.50.

No Clue to the Bank Robbers.

SAN FRANCISCO, February 19.—The police have no clue to the identity of the masked trio who robbed the Market street bank of \$3000 yesterday. The detectives working on the case are on the ground of the bank robbery, but have small hope of capturing the thieves, although the bank officials have furnished descriptions of the men.

Charges Preferred by the G. A. R.

OAKLAND, February 19.—G. A. R. Post No. 5 of this city has adopted resolutions making serious charges against the directors and officers of the Soldiers Home at Yreka, and demanding that Governor Budd investigate the management.

Prince Ferdinand Recognized.

CONSTANTINOPLE, February 19.—All the papers, it was announced today, have recognized Prince Ferdinand of Bulgaria in accordance with the request of the Sultan.

DYNAMITE EXPLOSION.

Many Persons Killed—Hundreds of Houses in Ruins.

JOHANNESBURG, February 19.—An explosion of dynamite has occurred at Viendendrop and the poor quarter of the town has been blown to pieces. Hundreds of houses are in ruins and the havoc wrought is fearful. A number of persons have been killed, and the populace has turned out en masse and is working to rescue those who may be buried in the ruins. The windows of every house in Johannesburg were broken by the explosion.

The dynamite which caused the catastrophe filled eight trucks, which were being exploded in a tunnel. The explosion caused a hole thirty feet deep. Every house within a radius of half a mile of the explosion was razed to the ground. Forty dead, nearly all terribly mangled, have already been taken from the ruins, but the work of searching the debris has scarcely begun.

Two hundred of the most severely injured were admitted to the hospital, where several died. It is believed a few white persons were killed.

MAHER IMPROVING.

Fitzsimmons Believes the Fight Will be a Short One.

EL PASO, Texas, February 19.—The fight was really asleep today. The only point of interest in it was the condition of Maher's eyes and of those the report was as it has been for the last three days, steadily improving. Fitzsimmons remained very quiet in his quarters today and gave the numerous Mexicans who watch every move he makes the house, a chance to rest themselves. He is doing only very light work in order to keep himself in first-class condition. He is certainly in superb shape and reiterated today his firm belief that the fight will be a very short one and that he will be returned an easy winner inside of five rounds.

A Notable Race.

SAN FRANCISCO, February 19.—The Thornton stakes, four miles, for a purse of \$3000 will be run at Bay District track on Sunday. This unusual event is attracting the attention of the country and a record-breaking contest and attendance is expected. The probable starters are: Star Ruby, Clansman, Fred Gardner, Gilard, Service, James, Arcangel and April. The size of the field and its class will make the event a notable one.

Harmans Held to Answer.

SACRAMENTO, February 19.—John P. Harmans, the tramp who found \$500,000 which Brady and Brown had stolen from the express company, and who was held to answer for the return of the money, was this afternoon held to answer in the superior court, with bail fixed at \$3000. The charge against Harmans was for retaining money he knew had been stolen.

THE WRECKED MINE.

RESCUERS HAVE RECOVERED BUT FOUR BODIES.

Forty-eight Men Known to Have Been Killed by the Explosion.

NEWCASTLE, Colo., February 19.—The principal work at the wrecked Vulcan mine today has been the pumping of air into the drifts to drive out the smoke and gas so as to permit rescuing parties to reach the bodies of the victims. The total number of killed is now known to be forty-eight. All others whose names appear on the company's books have been accounted for. Only eight of the dead men were married. Up to six o'clock this evening but four bodies had been recovered, including that of Ed Welch, the rider who was killed at the mouth of the mine.

Rescuers are so far slow that the workings to the west of the main slope are badly wrecked and it may require days of labor to clear the passages so as to reach the dead miners. The eastern portion of the mine is not damaged and it is thought no difficulty will be found in exploring it when the had air is driven out.

Work was temporarily stopped about noon today for the purpose of flooding the steps and chambers of the mine with air and of drying out, if possible, gas and menacing dangers that remained after yesterday's explosion.

All night shifts of men, working two hours, were kept employed putting up an air fan in the place of those destroyed. Simultaneously crews of five men were sent into the dead mine to try to get the main stoppage entrance and the air passages to work their way, if possible, to where the bodies of the dead men lay.

This work was accompanied with the most imminent peril, owing to the black damp with which the mine was filled. Fully twenty men were carried to outer air, overcome by the noxious gases.

Denver, February 19.—W. H. Medaris, a young miner who arrived in this city today from Newcastle, was an eyewitness of the terrible explosion yesterday, by which over forty miners were killed. He was expected yesterday morning to go to work in the mine for one of the Dore boys, three of whom were killed, but at the last moment his plans were changed.

Medaris says the explosion was caused in the same manner as the one at the same mine eight years ago, that combined with coal dust forms an excellent medium for an explosion, especially when there is a "blow" shot just before. In this case, he says, a shot was probably not well tamped, the tamping blowing out and the flame set off the gas and dust.

Miss Barton's Relief Work.

CONSTANTINOPLE, February 19.—Miss Clara Barton, president of the American Red Cross Society, after having been presented to the Turkish minister interested in the purposes of her mission here, began making preparations necessary to start for Anatolia, to superintend the relief work for the distressed Armenians. She has established her headquarters in the Pera quarter, and with the aid of her assistants is making rapid progress with the work of organization.

Waller's Pardon.

PARIS, February 19.—The pardon of John L. Waller, convicted by a court martial in the island of Madagascar of illegally communicating with Moros, and sentenced to twenty years' imprisonment, has been sent to President Faure for the latter's signature. The present act is due to the representations made by the United States government in the prisoner's behalf.

COURT HOUSE REPAIRS

An Interesting Talk With Contractor McCann.

PROGRESS OF THE ROUGH WORK

The House Will Not go Up for Four Months—Removing Debris.

Contractor R. M. McCann of the Rye Building and Contracting Company, San Francisco, is busy around the court house getting a general impression of the work of tearing down, now in active progress. There are only five men employed at present, but they have made quite considerable changes in the ruined portion of the structure. Ceilings, arches and party walls are coming away piecemeal, and the available portion of the debris is being gathered up into barrels for future use. Practically the whole of the tilting has been taken up and the unimpaired tiles have been stored up to be reused.

"I expect to employ about twenty men a day, on the average, when we get to work on this job," said Contractor McCann to a reporter. "We cannot put on anything like that number till the removal of the debris is completed. But, as you can see, this is going on in great shape."

It was evident that the contractor's men meant business. Chutes were rigged up, and the debris, if not the entire court room, of Judge Carter, Riley and Webb, Hollow bricks and plaster came tumbling down and the useful brick was rapidly cleared from the rubbish, which was in turn dumped into chutes and carted away. Owing to the danger of walls, partitions and ceilings falling, the contractor posted a watchman in the hallway to exclude the public, while he himself went the rounds with the reporter.

Judge Carter's court has been almost entirely cleared, but many alterations in the windows and arches are contemplated by the contractor, and the old dimensions of the court room will scarcely know it after it is reconstructed in accordance with the general design. One feature in this design is to save all the windows alike as far as possible, whereas at present they are as dissimilar as the pattern "unlike" of a quill. There is a week ahead in Judge Riley's court room, and the contractor is only for the security of the contractor. Several windows will have to be widened; in other cases the lattice must come out, and again brick arches will be introduced where a strain will have to be borne.

Castling a glance at the stairway, which in the days before the fire led from the District Attorney's office to Judge Webb's court room, Mr. McCann drew attention to the wretched condition of the stairway. He said: "Let me tell those good people of Fresno who found fault with the stairway of the court house, that the contractor did not make money by the change. It cost him more for venier than for solid wood in that case, and the contractor is a better bargain. In a hot climate like this venier stands much better than solid oak."

Mr. McCann exemplified his position by showing two door panels in Judge Webb's chambers, one being of solid oak, the other of venier. The former was badly warped.

"As to the doors," pursued Mr. McCann, "I expect you shall be ready to put it up in about four months. It will be of heavier steel and will, I expect, be made at the Judson Iron Works in Berkeley."

Mr. McCann concluded by saying that in speaking of employing an average of twenty men a day he meant that number of brick men, plumbers, carpenters, plasterers, painters, etc., at different times, according to the kind of work needed and then in progress. In all cases Fresno workmen will be employed, the foreman being the only exception.

"The most difficult portion of the work at the present time is the old store room in the basement. A considerable quantity of water had found its way into the ceiling of this room during the late rains and now lies in pools on the floor."

GAVE HIMSELF UP.

Killed a Man and is Now Ready to Repent.

LOS ANGELES, February 19.—William Walters, who in a typical southerner of the lower class, walked into the sheriff's office this afternoon and said he desired to give himself up for shooting a man in Tulare county, Alabama, in April, 1890.

Walters said he was working in the coal mines near Tulare in 1890 and got into an argument one day with a man named Paul Maddox over the price of a bottle of whiskey.

In a fight which followed Maddox struck him over the head with the bottle and Walters retaliated by shooting Maddox through the body.

No one attempted to arrest him, but he made his way to the Pacific coast, going to the state of Washington, where he remained about two years, and then went to Oregon. He was arrested in Salem and kept in jail for more than two years without having a trial or being told what he was jailed for. He was released last December and drifted back to Washington, finally landing in this city Tuesday morning, when he decided to give himself up to the sheriff.

A Lunatic Creates a Panic.

THIRLAND, February 19.—T. O. Douglas, a farm hand working on the Paige ranch, suddenly went crazy last night and created quite a panic by firing several shots at his fellow workmen. Fortunately no one was killed, but Luntford received a slight wound in the cheek and hand. Douglas immediately took to the field, and was found in the vineyard this afternoon, having shot himself through the head.

Gold Reserve.

WASHINGTON, February 19.—The treasury today had \$107,700 in gold coin and \$19,300 in bars, leaving the true amount of the reserve \$127,000.

ABSOLUTELY PURE

DISASTROUS FIRE.

Forty-four Bodies Removed From a Burning Building.

LUNOX, February 19.—At a masked ball given by the Artists' club of San Tarcon, fire broke out shortly before midnight and spread with great rapidity. A terrible panic followed the first alarm and all present rushed for the exits, which were soon filled with terrified people. Despairing of escaping by any other means, men, women and children jumped from the windows, seriously injuring themselves. Friends of the revelers rushed into the burning building later to aid in the work of rescue, and many of them were caught by the flames before they could make their way out. Thus far forty-four bodies have been removed.

All of the bodies of the victims thus far recovered, except one, are those of women and girls.

King Carlos and Queen Anais will go to Seaboard tomorrow to assist the families of the victims of the fire.

PLANTERS MUST GRIND CANE

The Captain General of Cuba Orders Them to Commence at Once.

HAVANA, February 19.—The governor of Matanzas has issued a circular stating that the planters in that province must start grinding cane at once, and that they should organize, at their own expense, an armed body of men for the protection of their property, which, he said, will be assisted by the government guerrillas and the regular army. The circular makes it understood that it is the duty of the planters to help the government in this manner. Two leaders will pay the guerrillas for their services, and will furnish the necessary arms and ammunition for the plantation guards.

Oil Shipments.

LOS ANGELES, February 19.—The oil exchange will begin shipping petroleum to San Pedro Saturday preparatory to sending the first cargo north next week, which will consist of 1000 barrels.

J. N. Knowles, manager of the Arctic Oil Works of San Francisco, has been in the city during the week, and has purchased 2500 barrels of crude oil from the exchange.

The exchange reports the sale this afternoon of between 6000 and 7000 barrels of oil to one firm in San Francisco. The name of the purchaser is not known but it is understood to be connected in no wise with the Arctic Company.

Stockman Insolvent.

VENTURA, February 19.—W. M. Solter of Hennessy filed a petition in insolvency today, making an assignment to Sheriff Charlebois. The liabilities are \$25,000 and the assets \$16,000. Solter has been one of the largest ranchmen and stockmen in the country, and his embarrassment has caused widespread surprise. The failure is the result of the heavy losses in the late cattle market. The creditors are principally in Los Angeles county.

MINISTER TAYLOR'S NOTE

A SPANISH PAPER SAYS THE DEMAND IS UNPRECEDENTED.

The State Department at Washington Has No Knowledge of the Matter.

MADRID, February 19.—The Imperial today credits the story published by the Herald yesterday and called exclusively to the Associated Press last night, saying that Haniel Taylor, the United States minister, has addressed a curt note to the Spanish government demanding explanations regarding an address delivered before a geographical society by Senor Canovas, who commanded the cavalry Santa Maria, which was sent by Spain to the Columbian exposition in this city of the late year. His impressions of his visit to the United States government are offensive to the United States government.

The Imperial says that the demand is entirely unprecedented as the geographical society before which the address was made is not an official body. Senor Canovas, in this address, asserted that the United States minister to the United States was very defective, and that family relations lacked that which was to be desired. Education, though widespread, was only the surface. He concluded by the remark that in America everything is sacrificed to the almighty dollar, and that business and the materialities of life crowd all noble sentiments.

WASHINGTON, February 19.—If Haniel Taylor, United States minister to Madrid, has, as is reported on the authority of a Spanish newspaper, addressed a note to the Spanish government demanding an explanation of an attack made upon the United States in an address delivered by Senor Canovas before a geographical society, then the minister has acted entirely upon his own responsibility, for nothing of the subject matter of the complaint is known at the state department. It is felt here that the facts cannot be as represented, or at least there must be other facts not stated in the cable dispatch, for our minister would not, it is argued, base an official complaint upon an address entirely lacking in this appearance to have been in official character. It is not presumed here that our minister abroad can take cognizance of all criticisms passed upon his country by individuals before private gatherings.

Suspicious Characters in Custody.

GOLDENHALL, Wash., February 19.—Two suspicious looking men were arrested today by Sheriff Sinton, who thinks the men are wanted in Los Angeles. Some weeks ago a jewelry store there was burglarized and the proprietor murdered. The sheriff is awaiting further description.

Freight Train Wrecked.

REBLAND, February 19.—The breaking of a wheel wrecked a freight train on the Southern Pacific railroad at Reblake this afternoon, necessitating the holding of the eastbound passenger train, and the overland for several hours.

CLASSIFIED ADVERTISEMENTS.

Advertisements of "Wanted," "For Sale," "For Rent," "Lost," etc., will be inserted at the rate of one cent per line for the first insertion. Subsequent insertions taken for less than five cents, depending on the length of each advertisement. Advertisements for the first three lines of ordinary reading matter, and eight words in the line for subsequent lines. Orders by mail promptly filled, but the cash should accompany each order.
